

SIPJA
TECHNOLOGY CO., LTD.

“ **SIPJA TECHNOLOGY** is a specialized gun manufacturing company since 1980 ”

Thank you very much for visiting our website.

We, SIPJA TECHNOLOGY is a specialized gun manufacturing company since 1980. Our main producing items are Air rifle, Shot gun, Bolt action rifle, Rope/Lifebuoy Launcher, Anesthetic gun, Tear gas launcher, Fire extinguisher launcher, etc.

Due to long time technology accumulation and know-how, we could supply for Rope/Lifebuoy Launchers, Anesthetic gun, and Fire extinguisher launcher to the Korean military and Fire fighting department exclusively. Also, we have been exported to over 30 countries for our various special purpose guns.

All of our staffs will do our best to improve the quality and will keep adopting new technology to meet our customer's need.

We wish your continuous support to us.
Thank you very much.

CEO **KIM JIN CHAN**

History of

2010~

- Gas launcher 38mm single & 6rounds production
- Gas launcher 40mm single & 6rounds production
- Pistol silencer production
- Fire extinguisher launcher production

2000~

- Shotgun and Bolt action rifle export to US Bauska company
- Rope/Lifebuoy, Anesthetic gun exclusive supply to Korea Fire fighting Department
- Year 2007. "Sipja Technology Co.,Ltd" name changed.

1990~

- Korea first 12GA 5rounds semi auto production
- Korea first Anesthetic gun & Rope/Lifebuoy gun production & export
- Shotgun 410GA production

1980~

- Year 1980 Sipja started
- Air rifle & Shot gun export to USA
- Korea first Bolt Action rifle export to USA

Main Production items

GAS LAUNCHER

- SJ-101 38MM SINGLE LAUNCHER (SINGLE ACTION)
- SJ-102 38MM SINGLE LAUNCHER (DOUBLE ACTION)
- SJ-103 40MM SINGLE LAUNCHER (SINGLE ACTION)
- SJ-104 40MM SINGLE LAUNCHER (DOUBLE ACTION)
- SJ-600N 38MM 6ROUNDS LAUNCHER (PUMP ACTION)
- SJ-604 40MM 6ROUNDS LAUNCHER (PUMP ACTION)

ROPE/LIFEBUOY LAUNCHER

- STR-300 AIR PRESSURE LAUNCHER
- STR-200 CO2 GAS PRESSURE LAUNCHER

FIRE EXTINGUISHER LAUNCHER

- SFE-100 PORTABLE FIRE EXTINGUISHER LAUNCHER
- SFE-101 CAR INSTALL FIRE EXTINGUISHER LAUNCHER

ANESTHETIC GUN

- STN-312 AIR PRESSURE ANESTHETIC GUN 12MM
- STN-313 AIR PRESSURE ANESTHETIC GUN 13MM
- SMART-12 CO2 GAS PRESSURE ANESTHETIC GUN 12MM

AIR RIFLE

- EXCALIBUR AIR PRESSURE AIR RIFLE 5.0MM

Gas Launcher

SJ-101 38mm single launcher (Single Action)

USE

SJ-101 is made for police and law enforcement forces to control and disperse riots & illegal demonstrators by shooting 38mm CS tear gas cartridge or 38mm Rubber bullets.

Using top open system, fast and easy firing can be done and also has safety lock system, gun body is made of strong aluminum alloy and butt stock can be optional either fixed or foldable.

SPECIFICATION

Model	SJ-101		Caliber	38mm
Type	Fire type	Explosive	Barrel No.	1
	Loading type	Insert type	Open sys.	Top break
	Fire sys	Manual	No of bullet	1
Length	705mm(Full length)		Barrel length	300mm
	450mm(Folded length)			
Loading	1round		Weight	1.8kg
Rifle	No(smooth bore)		Reference	Spec can be adjustable

Gas Launcher

SJ-102 38mm single launcher (Double Action)

USE

SJ-102 is made for police and law enforcement forces to control and disperse riots & illegal demonstrators by shooting 38mm CS tear gas cartridge or 38mm Rubber bullets.

Using top open system & double action system, fast and easy firing can be done and also has safety lock system, gun body is made of strong aluminum alloy and butt stock can be optional either fixed or foldable.

SPECIFICATION

Model	SJ-102		Caliber	38mm
Type	Fire type	Explosive	Barrel No.	1
	Loading type	Insert type	Open sys.	Top break
	Fire sys	Manual	No of bullet	1
Length	695mm(Full length)		Barrel length	280mm
	425mm(Folded length)			
Loading	1round		Weight	1.8kg
Rifle	No(smooth bore)		Reference	Spec can be adjustable

Gas Launcher

SJ-103 40mm single launcher (Single Action)

USE

SJ-103 is made for police and law enforcement forces to control and disperse riots & illegal demonstrators by shooting 40mm CS tear gas cartridge or 40mm Rubber bullets.

Using top open system, fast and easy firing can be done and also has safety lock system, gun body is made of strong aluminum alloy and butt stock can be optional either fixed or foldable.

SPECIFICATION

Model	SJ-103		Caliber	40mm
Type	Fire type	Explosive	Barrel No.	1
	Loading type	Insert type	Open sys.	Top break
	Fire sys	Manual	No of bullet	1
Length	705mm(Full length)		Barrel length	300mm
	450mm(Folded length)			
Loading	1round		Weight	1.8kg
Rifle	No(smooth bore)		Reference	Spec can be adjustable

Gas Launcher

SJ-104 40mm single launcher (Double Action)

USE

SJ-104 is made for police and law enforcement forces to control and disperse riots & illegal demonstrators by shooting 40mm CS tear gas cartridge or 40mm Rubber bullet & sponge bullet.

Using top open system & double action system, fast and easy firing can be done and also has safety lock system, gun body is made of strong aluminum alloy and butt stock can be optional either fixed or foldable.

SPECIFICATION

Model	SJ-104		Caliber	40mm
Type	Fire type	Explosive	Barrel No.	1
	Loading type	Insert type	Open sys.	Top break
	Fire sys	Manual	No of bullet	1
Length	695mm(Full length)		Barrel length	280mm
	425mm(Folded length)			
Loading	1round		Weight	1.8kg
Rifle	No(smooth bore)		Reference	Spec can be adjustable

Gas Launcher

SJ-600N 38mm 6rounds launcher (Pump Action)

USE

SJ-600N 6 rounds revolving gas launcher is designed for the riot control purpose and its basic bullet is 38mm CS cartridge, rubber bullet and sound bullet, etc. It shows good performance for 6 rounds continuous firing at the field operation.

Gun is made of strong aluminum alloy and has high precision and strength by CNC machine cutting.

SPECIFICATION

Model	SJ-600N		Caliber	38mm
Type	Fire type	Explosive	Barrel No.	1
	Loading	Revolving	Open sys	Top break
	Fire sys	Semi auto	No of Bullet	6
Length	740mm		Barrel length	245mm
Loading	6rounds		Weight	3.8kg
Rifle	No(smooth bore)		Reference	Spec can be adjusted

Gas Launcher

SJ-604 40mm 6rounds launcher (Pump Action)

USE

SJ-604 6 rounds revolving gas launcher is designed for the riot control purpose and its basic bullet is 40mm CS cartridge, rubber bullet and sound bullet, etc. It shows good performance for 6 rounds continuous firing at the field operation.

Gun is made of strong aluminum alloy and has high precision and strength by CNC machine cutting.

SPECIFICATION

Model	SJ-604		Caliber	40mm
Type	Fire type	Explosive	Barrel No.	1
	Loading	Revolving	Open sys	Top break
	Fire sys	Semi auto	No of Bullet	6
Length	740mm		Barrel length	245mm
Loading	6rounds		Weight	3.8kg
Rifle	No(smooth bore)		Reference	Spec can be adjusted

Rope/Lifebuoy Launcher

STR-200 CO2 Gas pressure launcher

USE

STR-200 rope launcher and lifebuoy launcher can be used in many kinds of emergency rescue purpose. for example our lifebuoy launchers are widely used at Korean Fire Department for various kinds of water rescue works such as summer beach rescue, river, sea rescue, Navy rescue gun, etc.

Also, rope launcher is used for many kinds of rescue and special operation purpose by Rescue team and military special unit.

SPECIFICATION

Model	STR-200		Caliber	15mm
Type	Fire type	Air pressure	Barrel No.	1
	Loading	bullet insert	Open sys	lever
	Fire sys	Manual	No of Bullet	1
Length	845mm		Barrel length	392mm
Loading	1round		Weight	4.3kg
Rifle	No		Reference	Spec can be adjusted

Rope/Lifebuoy Launcher

STR-200 CO2 Gas pressure launcher

USE

STR-200 rope launcher and lifebuoy launcher can be used in many kinds of emergency rescue purpose. for example our lifebuoy launchers are widely used at Korean Fire Department for various kinds of water rescue works such as summer beach rescue, river, sea rescue, Navy rescue gun, etc. Also, rope launcher is used for many kinds of rescue and special operation purpose by Rescue team and military special unit.

SPECIFICATION

Model	STR-200		Caliber	15mm
Type	Fire type	Air pressure	Barrel No.	1
	Loading	bullet insert	Open sys	lever
	Fire sys	Manual	No of Bullet	1
Length	845mm		Barrel length	392mm
Loading	1round		Weight	4.3kg
Rifle	No		Reference	Spec can be adjusted

Fire extinguisher launcher

SFE-101 Car install fire extinguisher launcher

USE

SFE-101 Fire extinguisher launcher can be used for firing chemical extinguisher to the early stage of fire spots, especially somewhere fire truck can not be reached due to narrow road or too high position or various other obstacles. With this car attached fire extinguisher launcher, Quick fire extinguish is possible from difficult working environments.

SPECIFICATION

Model	SFE-101		Caliber	18mm
Type	Fire type	Explosive	Barrel No.	1
	Loading type	Insert bullet	Open sys.	Top break
	Fire sys	Manual	No of bullet	1
Length	710mm±5mm		Barrel length	300mm±5mm
	960mm±5mm(with adopter)			
Loading	1		Weight	3.5kg
Rifle	No		Reference	12GA blank ammo

Fire extinguisher launcher

SFE-101 Car install fire extinguisher launcher

USE

SFE-101 Fire extinguisher launcher can be used for firing chemical extinguisher to the early stage of fire spots, especially somewhere fire truck can not be reached due to narrow road or too high position or various other obstacles. With this car attached fire extinguisher launcher, Quick fire extinguish is possible from difficult working environments.

SPECIFICATION

Model	SFE-101		Caliber	18mm
Type	Fire type	Explosive	Barrel No.	1
	Loading type	Insert bullet	Open sys.	Top break
	Fire sys	Manual	No of bullet	1
Length	710mm±5mm		Barrel length	300mm±5mm
	960mm±5mm(with adopter)			
Loading	1		Weight	3.5kg
Rifle	No		Reference	12GA blank ammo

Anesthetic gun

STN-312 Air pressure anesthetic gun 12mm

USE

STN-312 Anesthetic gun is widely used for catching harmful animal in the city or rescue of endangered animal or wide animal catching.

SPECIFICATION

Max range	Over 50meters	Effective range	15M,30M,50M according to the cylinder
Length	960mm	Weight	2.15 Kg ± 0.25 Kg
Extended barrel length	320mm	Max. Length	1,245mm

Anesthetic gun

STN-313 Air pressure anesthetic gun 13mm

USE

STN-313 Anesthetic gun is widely used for catching harmful animal in the city or rescue of endangered animal or wide animal catching.

SPECIFICATION

Max range	Over 70meters	Effective range	15M,30M,50M according to the cylinder
Material	STKM 13C Steel & aluminum alloy	Weight	2.56 Kg \pm 0.25 Kg
Full Length	970mm	Length	490mm
Type	Short range & Long range together	Fire sys	by Air pressure

Anesthetic gun

SMART-12 CO2 gas pressure anesthetic gun 12mm

USE

SMART-12 CO2 Anesthetic gun is widely used for catching harmful animal in the city or rescue of endangered animal or wide animal catching.

SPECIFICATION

Model	SMART-12		Caliber	12mm
Type	Fire type	Co2 gas	Barrel No.	1
	Loading type	Insert bullet	Open sys.	bolt action
	Fire sys	Manual	No of bullet	1
Length	800mm±5mm(extend barrel included)		Barrel length	443mm±5mm
	617mm±5mm			
Loading	1round		Weight	
Rifle	No		Reference	Spec can be adjustable
